

## ***LIBER Annual Conference 2019 Knowledge Café***

On Wednesday 26 June 2019 the program of the LIBER Annual Conference will feature the Knowledge Café. In 2017 and 2018 the Knowledge Café focussed on the LIBER strategy 2018 -2022 by zooming in on issues of strategic importance (2017) and then on how to bring the strategy to live (2018). With the [LIBER strategy](#) underway, 2019 sees LIBER transition on other fronts: the LIBER organisation is moving towards a sustainable organisation model that encompasses new services for LIBER members, a renewed effort to connect with the wider European Research Library community in regions where LIBER is currently underrepresented, ideas on how to further develop the LIBER Annual Conference and a revision of LIBER partnerships with commercial partners. As this transition is shaping up, it is important to get a grasp of where the LIBER members stand on key questions regarding these matters. Guided by key questions the Knowledge Café will facilitate LIBER Annual Conference guests to show where they stand on key questions regarding LIBERs move towards a sustainable organisation model.
